DEDICATION

not only a great teacher and wise counselor but
a true friend, this volume is dedicated.

SUPERINTENDENTS' NOTE

You are now approaching the end of one part of your educational career. In many ways the last year of high school is the most important of all school years, for it provides a good chance to clarify your thinking about ideals and goals. This last year in high school is an excellent time to overcome personal deficiencies, build needed strengths, and get the most from the friendships and opportunities your high school provides. Soon you will be leaving the protective atmosphere of Green Bank High School, and you must make important decisions as to jobs, future education, and the responsibilities of adult citizenship. The decisions you make will probably affect the rest of your life, for every adult is influenced by his answers to his youthful problems.

It is the nature of society for new problems to arise constantly, and the best society can do is to become adept in solving problems. The purpose of your education is to test one idea against another idea, one method against another method, to inquire into and to examine until men can know the true from the false.

Mr. Kermit Arbogast

*Best Wishes
to you.*
